

Schill Reenactment

Stralsund 11. - 13. September 2009

In the year 1809 Austria tried to lead the crucial impact against the napoleon France. At the same time the fight of the hussar's major Ferdinand von Schill in Stralsund put a sign. The tragic death repeats itself in the year 2009 to 200. Marks. The old part of town Stralsund is carried back thereby by 200 years. Several bivouacs will develop approximately around the town centre. In the old part of town Stralsunds is manufactured the state of siege of 1809. History touchable and experiencable to make is a goal of our project. By the international participation today a people-connecting event becomes from bloody history at that time. Not strange-hostile acting determines the spirit of the Reenactments, but understand a historical event to represent together, itself thereby and to respect to learn.

Order of Events:

Friday 11/09/2009

Hereby I certify that all riflemen of our association who take part in the Schill Reenactment are in possession of an explosive – legal permission in accordance with §27 of the explosive law. All members are sufficiently insured. We exclusively use front loaders and cannons which can carry an officially valid Boell in hintance fining character or prove an official rebambard- went. Expressly we confirm that we use the cannons with flour charge, sawdust or similar condemned shooting charges. Dorks, wood or similar condemnations as well as shop with the loader bucket are forbidden. As enclosure a copy is attached to valid permission due to §27 of the explosive law. The person responsible for bombardement and front loaders certifies.

Name and seat of the association/participant :
